Measurement Listings

- All listings are overall dimensions, unless noted otherwise.

Standard Features

- All products are made with arsenic free yellow pine, dried after treatment
- Constructed with Weather Match Screws, to match wood and color and provide long lasting durability.
- Zinc plated bolts are used where appropriate to provide a sturdy structure.
- Each component is milled and routed, leaving a smooth, finished edge.

Care Instructions

- EMC uses only No. 1 pressure treated wood which may be stained, painted or sealed at any time. If so desired, your furniture may be allowed to weather naturally over time. Periodical tightening of screws, nuts, and bolts is advised.
